Lynn, for the time-being, please include me in all emails, meeting invitations, etc. relating to Westlake.

Thanks.

Hi Steve, thanks for reaching out about this. I would be happy to include you as you see fit.

David was never involved in West Lake meetings that I am aware of, but we can add you to the calls and meetings if you would like. Is it just the stormwater mtg or are you wanting to be invited to others?

Hello Lynn,

Recently Dave Lamb and I traded positions – I am not the MDNR/HWP director (and he is now the Chief of the Public Drinking Water Branch). Please include me in future emails regarding this and other appropriate topics.

Thanks.

Subject: Asking to Reschedule May 10 Meeting

Hi Everyone – I apologize for this because I know how much effort Missy put into trying to get this meeting scheduled on the 10th, but the EPA folks would like to postpone this meeting by a week or so for several different reasons, but one of which is waiting on some validated sediment and maybe stormwater data to include in the conversation. So...would you look at the following week maybe for a meeting in Sedalia. One other suggestion I will toss out and that is we might want to also revisit where we are with the technical aspects of the IB. Maybe we can have ORD and USACE call in for that part of the discussion. So is there a day where we could maybe meet at 10:00 and plan to go through the afternoon (maybe break for lunch or have some brought in?)

Again – I apologize for the inconvenience. Lastly, if we wait another week we may have a chance of having Tom participate by phone - maybe.

Thank you,

Lynn M. Juett
